

Smoke-Free Environments

Laws and regulations that provide Smoke-Free areas as protection from [secondhand smoke](#) and aerosol (from electronic cigarettes) vary in Australia: [Queensland](#) [ACT](#) [New South Wales](#) [Tasmania](#) [Victoria](#) [Western Australia](#) [South Australia](#) [Northern Territory](#) with some national controls across [Australia](#).

The Heart Foundation supports consistency between jurisdictions in smoke-free legislation – in particular for outdoor dining and drinking areas, and the inclusion of bans on e-cigarette use – to bring all states and territories in line with the highest levels of protection.

Outdoor eating and drinking areas

Smoke-Free areas	Action is needed for Smoke-Free laws
Outdoor eating areas	Outdoor drinking areas
