Some medicines should NOT be taken with a Calcium Channel Blocker

Always tell your Aboriginal Health Worker, nurse, doctor and pharmacist about all the medicines you are taking, even if you buy the medicine at the supermarket or store.
Side-effects of Calcium Channel Blockers

Some Calcium Channel Blockers can have unwanted effects, called side-effects. Side-effects do not happen to everyone and often go away after a short time.

**Mild and common side-effects:**

- Dizziness
- Swollen ankles
- Flushing
- Rash
- Headache
